

AIRPLANES OF WAR DEPARTMENT ARE COMING TO OGDEN

Flying Circus to Land on Field Selected at Washington Heights, and Also at Hot Springs—W. L. Wattis, as Head of Publicity Bureau, Makes Extensive Arrangements for the Reception and Plans to Meet All Requirements of U. S. Fliers.

Ogden is to be visited in the near future by six large DeHavilland aeroplanes. These machines, which will execute a series of maneuvers about the city, are to be sent here by the United States government from Ellington field, Houston, Texas, and their visit is the result of arrangements made by the Ogden Publicity bureau and the Weber club. All expenses are to be borne by the war department, the visit being in connection with a plan to stimulate interest in recruiting for this department of national defense.

Some time ago a tentative inquiry was addressed to the business men's commercial organization by Lieut. Col. L. W. McIntosh, commanding at the air service flying school, Ellington field, Houston, Texas. The letter was given immediate attention by Warren L. Wattis, president of the publicity bureau and the Weber club, who appointed a committee to collect information in answer to the lieutenant's inquiry. This information pertained to the topography and size of possible field, character of soil, grade and position in regard to obstructions and proximity to the city. Inquiry was also made as to the altitude and possibility of securing a supply of suitable gasoline and oil on short notice. President Wattis appointed Ensign Roscoe C. Williamson, Lieut. Eber P. Piers and Lieut. R. M. Fox, all former air service men, to make investigation and report. They did in a very thorough manner, turning over to Mr. Wattis complete detailed report giving the location of two possible fields, together with measurements and all other data. The larger and most accessible field is two miles south of Ogden on the Washington Heights property, which has a width of 1000 feet in excess of the demands of the squadron and was pronounced excellent in every respect by the three investigators. A descriptive of this field prepared by architect Piers was also submitted.

A complete copy of this report, together with a letter from President Wattis of the publicity bureau, inviting the lieutenant and his pilots when making their proposed visit to establish their personal headquarters at the Weber club, was transmitted and a response accepting the invitation was received this morning. The letter of the commanding officer gave cordial thanks for the prompt and complete information sent and contained the following positive acceptance:

"You can expect the transcontinental flying circus about the middle of July; you will be advised of the exact date of our arrival at least one week in advance, and also about the gasoline and oil situation. Please have both the old and the new field marked with a large white cross in the center and have them in the best condition possible."

President Wattis has asked the same committee to continue in service to take charge of all arrangements incidental to the stay of the aviators in this community. It is possible that some of the experienced air men may travel by train to meet the visitors and act as their pilots to the city. From the fact that the commanding officer requested both the field at Washington Heights and at Hot Springs to be marked, it is assumed that both sites will be used, it being the evident intention of the officers to discover the possibilities and conveniences of Ogden as a permanent base for aeroplane work.

NEW YORK, June 25.—Early dealings on the stock exchange today indicated further short selling, particularly of oils, shippings, tobacco and metals. This was offset in a measure by the moderate strength of secondary rails, food issues and obscure specialties. Mexican Petroleum, Royal Dutch, Sinclair, American International, Tobacco Products, and American Smelting eased from fractions to a

point, while Texas and Pacific, Beet Sugar, U. S. Rubber and Westinghouse paper preferred gained 1 to 1½. A firmer tone set in before the end of the first half hour.

Announcement of further sales of refined copper at higher prices brought the metal group forward at gains of 1 to 3½ points and helped to effect additional readjustment elsewhere. There were a few exceptions, however, notably Baltimore and Ohio, which broke 2½ points in connection with reports regarding payment of the company's maturing obligations. Trading was the lightest any forenoon for many weeks, both as to scope and volume. Call money opened at 7 to 7½ per cent.

Trading continued very light during the mid-session, although the market broadened and hardened, motors and oils leading at overnight gains of 1 to 3 points. Shippings also improved, but the list fell back again on fresh pressure against steels and equipments.

CHICAGO GRAIN

CHICAGO, June 26.—The corn market was unsettled today, varying crop conditions and a general opinion that peace had been simply discounted in advance contributing to the initial weakness. The July option was relatively firmer than the more distant months. Selling orders induced a break early in the session. Opening prices which ranged from ¾ higher to ¼ lower, with July 1.79½, September 1.75 to 1.74½ and December 1.52½ to 1.52, were followed by slight declines. Later the market crept upward from the low levels.

Oats sagged with corn. After opening unchanged to ½ down, with September at 68½ to 68¾ the market sagged on all deliveries but later advanced fractionally with corn.

Provisions prices moved in sympathy with corn products, selling from 5 to 65 cents lower.

The corn market continued to strengthen, covering by shorts being a pronounced factor and late in the session prices were well away from the early figures. The market closed firm 1 to 2½ cents net higher, with July 1.80½ to 1.81, September 1.76½ to 1.77.

HUNGARIANS TO MOBILIZE.

PARIS, June 25.—(Havas.)—The Hungarian communist congress has ordered the general mobilization of all workmen, a dispatch from Budapest says. The military situation is said to be unfavorable to Hungary and in addition the morale of the troops is bad.

A. C. TOWNLEY IS LOCATED AT JAMESTOWN, N.D.

JACKSON, Minn., June 25.—Taking of testimony at the trial of President A. C. Townley of the National Non-Partisan League and Joseph Gilbert, a former league organizer, on an indictment charging conspiracy to commit sedition was begun in district court here this forenoon, after Judge E. C. Dean denied a motion of the defense to dismiss the case. Attorneys for the defense asked for a dismissal on the ground that the indictment charges more than one offense and that the action brought by the state usurps the power of the federal government to prosecute disloyalty cases.

Ole Thorson, judge of probate at Lakefield, was the first witness called by the state. Thorson was chairman of federal county war boards. He testified that on January 23, 1918, Joseph Gilbert came to Lakefield and said that the county authorities had exceeded their rights in issuing an order prohibiting meetings of the league and that he intended to speak.

1.76½ and December 1.54½ to 1.54½. Later the provisions market hardened with corn but within narrower limits.

Equalization Boards Are to Change Taxing Methods

SALT LAKE, June 25.—B. H. Roberts, chairman, and James T. Hammond and Henry G. Williams, members of the state board of equalization, will go to Utah county Monday to look over the work done there by the county assessor and to meet with the state board of equalization.

This will be the first of a series of visits to counties to be made by members of the board this year to discuss the work of assessment as it has been carried on so far.

Under a change of the provisions of the law, made by the last legislature, the powers of the state board, and the duties required of it are considerably enlarged. The board may require the county boards of equalization to make such changes in the assessment rolls as are necessary to equalize the assessment throughout the state, and this power may extend, not only to classes of property, but to individual assessments.

No radical change has been noted in the assessment of real estate in Utah in 1919, as reported by the county assessors, as compared with the assessment in 1918. The figures by counties when the total acreage of real estate assessed is compared with the total assessment show the following average values for acreage:

Weber county, \$26.26 per acre; Davis county, \$37.75; Salt Lake county, \$52.11; Utah county, \$27.64; Garfield county, \$25.50; Cache, \$25.28; Sevier, \$22.34; Millard, \$23.30; and Plute, \$21.25. All the other counties were under \$20 per acre, Duchesne being the lowest with \$4.95, and Box Elder next at \$5.25.

Lard \$34.05.
Ribs \$27.00 to 27.75.
